#### 1. GOING-CONCERN AND NATURE OF OPERATIONS

Cadan Resources Corporation (the "Company") is incorporated under the laws of British Columbia. The Company is an exploration stage company and its principal business activity is natural resource exploration, focusing on resources located in the Philippines.

On November 10, 2009, the Company consolidated its issued and outstanding common shares on a 5 old for 1 new basis. Trading of the consolidated shares of the Company commenced on November 10, 2009, under the new symbol "CXD".

These consolidated financial statements are prepared on a going concern basis, which contemplates that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these consolidated financial statements do not give effect to any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

For the three months ended June 30, 2010, the Company incurred a net loss of \$289,893 (June 30, 2009 - \$631,362) and had a deficit of \$21,570,881 (December 31, 2009 - \$20,395,860). The Company's ability to continue in operation is dependent on its ability to secure additional financing to fund ongoing administrative and planned exploration expenditures, and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

Mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company has no source of revenue and has significant cash requirements to conduct its planned exploration, meet its administrative overhead and maintain its resource interests.

The recoverability of the Company's investment in, and expenditures on, resource properties is dependent on several factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of resource interests.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

#### Basis of presentation

The accompanying financial information does not include all disclosures required under Generally Accepted Accounting Principles for annual financial statements. The accompanying financial information reflects all adjustments, consisting primarily of normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of results for the interim periods. These consolidated financial statements should be read in conjunction with our 2009 audited financial statements and notes.

These interim consolidated financial statements follow the same accounting policies and methods of their applications as our annual financial statements. These interim consolidated financial statements are prepared in accordance with Canadian Generally Accepted Accounting Principles and include the accounts of our wholly-owned subsidiaries, Exploradora La Esperanza S.A. (a Colombian company), and Sabena Limited (an Australian company) and the accounts of partially-owned affiliates, Philco

Mining Corporation ("PMC"), Batoto Resources Corporation ("BRC"), TMC Tribal Mining Corporation ("TMC") and Sunbird Philippines Holding Inc, referred throughout the financial statements as "the Philippine Companies". The Company owns 40 percent of each of the Philippine Companies and these companies have been consolidated in accordance with Accounting Guideline 15 ("AcG-15") as they meet the criteria of variable interest entities. All significant intercompany balances and transactions have been eliminated.

#### International Financial Reporting Standards (IFRS)

In February 2008, the Canadian Accounting Standards Board confirmed that publicly accountable enterprises will be required to adopt IFRS for fiscal years beginning on or after January 1, 2011, with earlier adoption permitted. Accordingly, the conversion to IFRS will be applicable to the Corporation's reporting no later than in the first quarter of 2011 with restatement of comparative information presented. The Company is currently evaluating the future impact of IFRS on its financial systems and reporting and will continue to invest in training and additional resources to ensure a timely conversion.
