**1. GOING CONCERN AND NATURE OF OPERATIONS**

Cadan Resources Corporation (the “Company” or “Cadan”) is incorporated under the laws of British Columbia. The Company is an exploration stage company and its principal business activity is natural resource exploration, focusing on resources located in the Philippines.

The head office, principal and registered address and records office of the Company is Suite 1720, 1111 West Georgia Street, Vancouver, British Columbia.

These condensed consolidated interim financial statements are prepared on a going concern basis, which contemplates that the Company will realize its assets and discharge its liabilities in the normal course of business. Accordingly, these condensed consolidated interim financial statements do not give effect to any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

Adverse conditions cast significant doubt on the Company’s ability to continue as a going concern. For the six months ended June 30, 2012, the Company had comprehensive income of \$2,408,282 (June 30, 2011 – comprehensive loss \$1,319,138). At June 30, 2012, the Company had an accumulated deficit of \$18,125,234 (December 31 2012 - \$21,648,598). The Company has no source of revenue and has significant cash requirements to conduct its planned exploration, progress the approval process for development of the T’Boli mine and processing plant, meet its repayment obligations on its convertible debt and meet its administrative overhead and maintain its resource interests. The Company has relied principally upon the issuance of securities for financing. The Company’s ability to continue as a going concern is dependent on its ability to secure additional financing to fund planned exploration, development of the T’Boli mine and processing plant, meet its repayment obligations on its convertible debt and its ongoing administrative expenditures, and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

Mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

The recoverability of the Company’s investment in, and expenditures on, exploration and evaluation assets is dependent on several factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of resource interests.

**2. BASIS OF PRESENTATION**

(a) Statement of Compliance

These condensed consolidated interim financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2011, which have been prepared in accordance with IFRS as issued by the IASB.

**CADAN RESOURCES CORPORATION**  
**(An exploration stage company)**  
**Notes to the Condensed Consolidated Interim Financial Statements**  
**Unaudited**  
**(Expressed in Canadian dollars, unless otherwise stated)**  
**Six Month Periods Ended June 30, 2012 and 2011**

---

(b) Approval of the consolidated financial statements

The consolidated financial statements of the Company for the six month period ended June 30, 2012, were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on July 12, 2012.

(a) Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Significant areas requiring the use of management estimates include: fair value of financial instruments; recoverability of investment in and expenditures on exploration and evaluation assets and property, plant and equipment; rates of amortization; balances of accrued liabilities; determination of provision for reclamation liability; the determination of the variables used in the calculation of share-based payments; and actuarial assumptions for retirement benefit obligations. While management believes the estimates are reasonable, actual results could differ from those estimates and could impact future results of operations and cash flows.

(d) Foreign currency translation

The Company's functional and reporting currency is the Canadian dollar. In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At each balance sheet date, monetary assets and liabilities are translated using the period end foreign exchange rate. Non-monetary assets and liabilities are translated using the historical rate on the date of the transaction. Non-monetary assets and liabilities that are stated at fair value are translated using the historical rate on the date that the fair value was determined. All gains and losses on translation of these foreign currency transactions are included in comprehensive income (loss).

### **3. FINANCIAL INSTRUMENTS**

The Company has classified its cash and cash equivalents as fair value through profit or loss (FVTPL); amounts and advances receivable (excluding HST receivable) as loans and receivables, and accounts payable and accrued liabilities, secured loans, convertible notes, and due to related parties, as other financial liabilities.

The carrying values of cash and cash equivalents, amounts and advances receivable (excluding HST receivable), accounts payable and accrued liabilities, and secured loans approximate their fair values due to the short terms to maturity of these financial instruments. The carrying values of amounts due to related parties approximates their fair value as the amounts are due on demand. The carrying values of convertible notes were determined, in accordance with level 2 of the fair value hierarchy, by discounting the face value of the notes over the one year term of the notes by 2.5% (LIBOR plus 2%) and accreting the discount over the 12 month term to the anticipated conversion date of the notes.

**CADAN RESOURCES CORPORATION**  
**(An exploration stage company)**  
**Notes to the Condensed Consolidated Interim Financial Statements**  
**Unaudited**  
**(Expressed in Canadian dollars, unless otherwise stated)**  
**Six Month Periods Ended June 30, 2012 and 2011**

The investment in Mining Group Ltd is classified by its two components. The options component is classified as FVTPL, and the fair value was determined in accordance with level 2 of the fair value hierarchy using the Black Scholes option pricing model (note 7). The shares component is classified as an available-for-sale financial asset, and the fair value was determined in accordance with level 1 of the fair value hierarchy based on the market price per share at June 30, 2012 (note 7).

(a) Credit risk

The Company is exposed to credit risk with respect to its cash and cash equivalents. Cash and cash equivalents have been placed on deposit with major Canadian, Philippine and Australian financial institutions. The risk arises from the non-performance of counterparties of contractual financial obligations. The Company is not exposed to significant credit risk on amounts and advances receivable (excluding HST receivable).

The Company manages credit risk, in respect of cash and cash equivalents, by maintaining deposits and guaranteed investment certificates at major financial institutions with strong investment-grade ratings.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents, as the majority of the amounts are held with only a few Canadian and Philippine financial institutions. The Company's concentration of credit risk and maximum exposure thereto, is as follows:

		June 30, 2012		December 31, 2011
Canadian dollar	\$	195,738	\$	3,420,002
Philippine peso		106,223		162,285
Australian dollar		-		2,355
<b>Total cash and cash equivalents</b>	<b>\$</b>	<b>301,961</b>	<b>\$</b>	<b>3,584,642</b>

(b) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

(i) Interest rate risk

Interest rate risk consists of two components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

**CADAN RESOURCES CORPORATION**  
**(An exploration stage company)**  
**Notes to the Condensed Consolidated Interim Financial Statements**  
**Unaudited**  
**(Expressed in Canadian dollars, unless otherwise stated)**  
**Six Month Periods Ended June 30, 2012 and 2011**

**3. FINANCIAL INSTRUMENTS (Continued)**

The Company's cash and cash equivalents consists of cash held in bank accounts and funds in held in trust. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on their estimated fair values as of June 30, 2012, and 2011. Future cash flows from interest income on cash will not be material. The Company manages interest rate risk by investing in highly liquid investments with maturities of one year or less.

(ii) Foreign currency risk

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars.

The Company is exposed to foreign currency risk with respect to cash and cash equivalents, accounts payable and accrued liabilities, and amounts due to related parties as a portion of these amounts are denominated in Philippine pesos as follows:

	<b>June 30, 2012</b>	<b>December 31, 2011</b>
Cash and cash equivalents	2,371,329	6,995,028
Accounts payable and accrued liabilities	(27,884,411)	(8,947,347)
<b>Net exposure</b>	<b>(23,513,082)</b>	<b>(1,952,319)</b>
<b>Canadian dollar equivalent</b>	<b>\$ (571,368)</b>	<b>\$ (45,293)</b>

The Company manages foreign currency risk by only holding funds in foreign currencies for short-term requirements of no more than two months. The Company has not entered into any foreign currency contracts and does not utilize derivatives to mitigate this risk.

A 1% fluctuation in the value of the Philippine peso at June 30, 2012, would result in a change to comprehensive income of \$5,714 (comprehensive loss June 30, 2011 - \$300).

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.

**CADAN RESOURCES CORPORATION**  
(An exploration stage company)

**Unaudited**  
(Expressed in Canadian dollars, unless otherwise stated)  
**Six Month Periods Ended June 30, 2012 and 2011**

---

**3. FINANCIAL INSTRUMENTS (Continued)**

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows required for operations and anticipated investing and financing activities. Accounts payable are all due within six months, and amounts due to related parties are without specific terms of repayment, however, they are expected to be repaid within one year.

The Company's secured loan became part of the purchase price when the Company entered into a transaction with the lender on January 17, 2012 (note 5). The convertible notes are not expected to be converted prior to the maturity date of December 23, 2012, therefore, repayment on the convertible notes will likely occur within one year.

The Company will require significant cash funding to conduct its exploration programs, progress the approval process for development of the T'Boli mine and processing plant, meet its administrative overhead costs, meet its repayment obligations on the convertible notes, and maintain its resource interests. This will require the Company to obtain additional financing in 2012.

**4. EXPLORATION AND EVALUATION ASSETS**

(a) Permits and licenses

Through its subsidiaries and the Philippine companies, the Company has interests in certain permits and licenses to explore and develop exploration and evaluation assets located in the Philippines, as described below:

- (ii) Batoto, Barangay Camanlangan, Municipality of New Bataan, Compostela Valley Province, Philippines.

There are no royalties payable to the Government of the Philippines, because the properties are located in an indigenous area. The indigenous peoples will, upon commercial production, be given a royalty equivalent to 1% of the operating cost of any operation. There are no annual work commitments.

- (iii) T'Boli, Barangay Kematu, Municipality of T'Boli, South Cotabato Province, Philippines.

There is a 2% mineral royalty payable to the government of the Philippines in respect of any future mineral production.

**4. EXPLORATION AND EVALUATION ASSETS (Continued)**

(b) Environmental

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its resource exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company. Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the resource properties, the potential for production on the property may be diminished or negated.

(c) Realization of assets

The investment in and expenditures on exploration and evaluation assets comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the attainment of successful production from the underlying properties or from the proceeds of their disposal.

Resource exploration and development is highly speculative and involves inherent risks. While the rewards, if an ore body is discovered, can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore. The amounts shown for acquisition costs and deferred exploration expenditures represent costs incurred to date and do not necessarily reflect present or future values.

(d) Title to exploration and evaluation asset interests

Although the Company has taken steps to verify the title to exploration and evaluation asset interests for which it has a permit and or license, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

---

**5. SALE OF INTEREST IN PHILCO MINING CORP**

On January 17, 2012, the Company completed the sale of 80% of its interests in affiliate Philco and granting an option to acquire 80% of its interests in Batoto to the Mining Group. The Company received cash consideration of \$3,150,600 (AUD\$3,000,000) and 2,600,000 Mining Group common shares with a fair value of \$1,774,838 (AUD\$1,690,000) and the right to receive an additional AUD\$1,000,000 once certain conditions have been met and an additional 2,600,000 Mining Group common shares if the trading price of Mining Group common shares is above Aus\$1 for 30 consecutive days expiring on January 17, 2014. No value has been ascribed to either the additional AUD\$1,000,000 or the additional 2,600,000 Mining Group common shares due to their contingent nature.

The Company retains a 20% investment in Philco (Note 6).

The Company recorded a gain of \$4,978,953 arising from the sale and the revaluation of its remaining investment in Philco.

Under the terms of the agreement, the Company exercised an option to purchase (i) 500,000 Mining Group common shares at \$0.20 per share for \$105,020 (AUD\$100,000), and (ii) 2,000,000 options for \$0.01 per option for \$21,004 (AUD\$ 20,000), each such option to purchase a Mining Group share for AUD\$0.20 until January 17, 2014. The Company repaid the Secured Loan of AUD\$1,000,000 from the proceeds.

Pursuant to a shareholders' agreement, the Mining Group has an obligation to fund Aus\$48,000,000 in exploration activity in Philco as follows:

<b>Exploration Expenditures</b>	<b>Annual amount (AUD\$)</b>	<b>Cumulative amount (AUD\$)</b>
Year 1	5,000,000	Nil
Year 2	5,000,000	Nil
Year 3	5,000,000	15,000,000
Year 4	15,000,000	30,000,000
Year 5	18,000,000	48,000,000

Should the Mining Group not meet the funding requirements, the agreement contains dilution provisions. Upon Mining Group funding the project to AUD\$48,000,000, both the Company and Mining Group will fund further development pro rata on their ownership interests.

Should Mining Group exercise its option on Batoto, the Company would retain a 20% interest which is free and carried until Mining Group has incurred a minimum of AUD\$30,000,000 of expenditures on the Batoto Gold Project.

**CADAN RESOURCES CORPORATION**

(Expressed in Canadian dollars, unless otherwise stated)  
Six Month Periods Ended June 30, 2012 and 2011

---

**6. INVESTMENT IN AND ADVANCE TO PHILCO MINING CORP**

Pursuant to the January 17, 2012, sale of an interest in Philco (Note 5), the Company retained a 20% investment in Philco. The investment is accounted for as investment in an associate using the equity method and was revalued on the date of the sale at \$1,231,360 (the proportionate amount of the consideration received). The carrying amount is as follows:

Investment amount	\$ 1,231,360
Share of net loss	(403)
Carrying amount	\$ 1,230,957
<hr/>	
Loan to Philco Mining Corp	\$ 11,968,025

The Company's advances to Philco are unsecured, non-interest bearing and have no specified terms of repayment. Pursuant to a shareholders' agreement, the Company's advance to Philco will rank equally with amounts advanced by MGL for exploration expenditures on the Philco copper gold project. The advances will be repaid first from distribution of profits on a proportional basis until each advance is repaid.

**7. INVESTMENT IN MINING GROUP LTD**

Pursuant to the January 17, 2012, sale of an interest in Philco (Note 5), the Company acquired 3,100,000 common shares of Mining Group and 2,000,000 share purchase options to acquire a Mining Group common share for AUD\$0.20 until January 17, 2014. At June 30, 2012, the fair value of the shares is \$802,048 and of the options (derivative financial instruments) is \$284,281.

The Company recorded an unrealized loss of \$474,695 for the three months ended June 30, 2012, and an unrealized gain of \$263,277 for the six months ended June 30, 2012, on the options in net income and an unrealized loss of 930,375 for the three months ended June 30, 2012, and an unrealized loss \$1,077,810 for the six months ended June 30, 2012, on the shares in other comprehensive income.

**9. SECURED LOAN**

On November 4, 2011, Mining Group issued to the Company an AUD\$1,000,000 (\$1,044,190) secured loan ("MGL Loan"). The MGL Loan was secured with a chattel mortgage on a specified exploration permit. The loan matured and was repaid on January 17, 2012, when the Company completed an agreement with Mining Group to effect the sale of 80% of the Company's interest in the Panag, Surigaonon and Tagpura properties.

**10. CONVERTIBLE NOTES**

On December 23, 2011, the Company issued 2,500,000 convertible notes that mature on December 23, 2012, with a face value of \$1 per note ("Convertible Notes") for a total of \$2,500,000. The Convertible Notes and any securities issued on conversion thereof were subject to a four month hold period that expired on April 24, 2012. Each Convertible Note converts to 5 common shares of the Company and an option to purchase an additional share for \$0.20 for a period of twenty-one months, or, on the maturity date if the Company has not obtained a listing on the Australian Securities Exchange ("ASX").

The Convertible Notes bear interest at 10% per annum, and convert on issue of a prospectus, for the listing of the Company's securities on the ASX, with the Australian Securities and Investments Commission ("ASIC"), or, at the election of the Company, at any time before repayment. If not converted, the note holders can demand payment on the maturity date, on change of control of the Company, or in the event of default by the Company. To date, the Company has accrued interest of \$130,464 in interest on the notes.

**CADAN RESOURCES CORPORATION**  
**(An exploration stage company)**

**Unaudited**  
**(Expressed in Canadian dollars, unless otherwise stated)**  
**Six Month Periods Ended June 30, 2012 and 2011**

**10. CONVERTIBLE NOTES (Continued)**

The Company recognized \$60,976 as the value of the conversion feature which is accounted for as debt discount recognized as interest cost over the 12 month term to the maturity of the notes. The unamortized discount of \$29,155 reduces the carrying value of the notes. The carrying value of the convertible notes at June 30, 2012, was \$2,601,309 determined as follows:

	June 30, 2012	December 31, 2011
Face value of notes	\$ 2,500,000	\$ 2,500,000
Accrued interest	130,464	5,479
unamortized discount	(29,155)	(56,403)
	\$ 2,601,309	\$ 2,449,076

**11. SHARE CAPITAL**

(a) Authorized

Unlimited common shares without par value

(b) Issued

At June 30, 2012, 78,369,515 (December 31, 2011 - 78,369,515) common shares were issued and outstanding.

On September 2, 2011, the Company completed the first tranche of a non-brokered private placement consisting of 4,560,667 units priced at \$0.30 per unit, for gross proceeds of \$1,368,200. Each unit is comprised of one common share of the Company and one common share purchase warrant. Each warrant is exercisable to acquire one common share of the Company at a price of \$0.45 for two years from the Closing date. The gross proceeds were allocated as \$1,140,167 to the common shares within share capital, and \$228,033 to the warrants within share-based payments reserve. The Company paid finders' fees in connection with the financing by issuing 259,140 finders' units with a fair value of \$77,742. Other cash share issuance costs in the amount of \$8,026 were incurred by the Company related to this placement.

On December 20, 2011, the Company completed a non-brokered private placement consisting of 16,370,000 common shares priced at \$0.15 per share, for gross proceeds of \$2,455,500. Other cash share issuance costs in the amount of \$26,478 were incurred by the Company related to this placement.

During the year ended December 31, 2011, a warrant holder exercised warrants and purchased 100 common shares at \$0.50 per share for gross proceeds of \$50.

**11. SHARE CAPITAL (Continued)**

(c) Stock options

The Company has a stock option plan whereby the Board of Directors is authorized to grant options to a rolling ceiling of 10% of the issued and outstanding common shares of the Company.

Options to purchase common shares have been granted to directors, employees and consultants at exercise prices determined by reference to the market value on the date of the grant. The terms of the option and the option price are fixed by the directors at the time of grant, subject to restrictions imposed by the TSX Venture Exchange. Stock options awarded have a maximum term of ten years. The vesting terms of the options are determined by the directors, however, options granted to investor relations consultants are subject to a minimum twelve-month vesting schedule whereby no more than 25% vest in any three-month period.

Stock options held by officers, directors and employees of the Company expire one year following their departure from the Company.

As at June 30, 2012, and December 31, 2011, the following incentive stock options were outstanding and exercisable:

Expiry Date	Exercise Price	June 30, 2012	December 31, 2011
July 20, 2014	\$ 0.50	840,000	840,000

**11. SHARE CAPITAL (Continued)**

(c) Stock options (continued)

The options outstanding and exercisable at June 30, 2012, have a weighted average remaining contractual life of 3.75 years (2011 – 4.38 years). Stock option activity for the year ended December 31, 2011, was as follows:

		<b>December 31, 2011</b>		
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding and exercisable, beginning of year	6,196,900	\$0.49	3,237,000	\$ 0.52
Awarded	-	-	3,390,000	\$ 0.43
Expired	-	-	(430,000)	\$ 0.50
Exercised	-	-	(100)	\$ 0.50
Outstanding and exercisable, end of year	6,190,900	\$0.49	6,196,900	\$ 0.49

No stock options were granted during the three and six months ended June 30, 2012.

On December 6, 2011, the Company granted 2,190,000 fully vested incentive stock options. The exercise price of the options is \$0.20 each, exercisable until December 6, 2016. The fair value of the stock options granted was \$325,018 (\$0.15 each), as estimated at the date of the grant using the Black-Scholes option pricing model.

On September 21, 2011, the Company granted 750,000 fully vested incentive stock options. The exercise price of the options is \$0.45 each, exercisable until September 21, 2016. The fair value of stock options granted was \$152,960 (\$0.20 each), as estimated at the date of grant using the Black-Scholes option pricing model.

On April 5, 2011, the Company granted 450,000 fully vested incentive stock options. The exercise price of the options is \$0.63 each, exercisable until April 15, 2014. The fair value of stock options granted was \$189,445 (\$0.42 each), as estimated at the date of grant using the Black-Scholes option pricing model.

(Expressed in Canadian dollars, unless otherwise stated)  
Six Month Periods Ended June 30, 2012 and 2011

**11. SHARE CAPITAL (Continued)**

(d) Warrants (continued)

Share purchase warrant transactions and the number of share purchase warrants outstanding are summarized as follows:

	<b>June 30, 2012</b>		<b>December 31, 2011</b>	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Outstanding, beginning of Period	30,559,841	\$0.95	34,906,090	\$ 1.06
Issued	-	-	4,819,807	\$ 0.45
Expired	-	-	(9,166,056)	\$ 1.10
Outstanding, end of period	30,559,841	\$ 0.95	30,559,841	\$ 0.95

**12. RELATED PARTY TRANSACTIONS AND BALANCES**

During the six month periods ended June 30, 2012 and 2011, the Company incurred management compensation as follows:

	<b>2012</b>	<b>2011</b>
Key management - consulting fees	360,000	285,000
Key management - share based payments	-	120,000
	360,000	405,000

Of this amount, \$300,000 (2011 - \$285,000) was expensed and \$60,000 (2011 - \$120,000) was capitalized to investment in, and expenditures on, exploration and evaluation assets.

At June 30, 2012, the Company owed \$60,000 (December 31, 2011 - \$Nil) for consulting fees. Amounts due to related parties are non-interest-bearing, unsecured and without specific terms of repayment. Amounts are expected to be repaid within one year.

At June 30, 2012, the Company is committed to pay termination payments to four officers and directors in the event those individuals are terminated without cause. The payments range from two to three years of annual salary per individual. If the termination payments were triggered for all four individuals, the Company would be required to pay to those individuals in total \$1,620,000.

**Six Month Periods Ended June 30, 2012 and 2011**

---

**13. CONTINGENT LIABILITY**

In December 2011, an Australian company filed, in Singapore, a Notice of Arbitration (the "Notice") against the Company and one of its Philippine affiliated companies claiming the Company owed them Aus\$714,924 (\$722,073). The Company is disputing the claim and considers it to be without merit.

**14. CAPITAL MANAGEMENT**

The Company is an exploration stage company and this involves a high degree of risk. The Company has not determined whether its properties contain economically recoverable reserves of ore and currently has not earned any revenues from its resource property interests and, therefore, does not generate cash flows from operations. The Company's primary source of funds comes from the issuance of share capital. The Company considers common shares to be the capital of the Company and has issued common shares for \$50,278,839 to June 30, 2012 (December 31, 2011 - \$50,278,839). The Company has received \$311,325 from investors interested in participating in a 50,000,000 unit private placement consisting of one common share and one share purchase warrant, with each warrant exercisable to acquire an additional share for a period of 2 years from closing date at a price of \$0.20 for the first year from the closing date and \$0.25 for the second year. The Company issued a secured loan for Aus\$1,000,000 (Cdn\$1,044,190) (note 9) which was redeemed on January 17, 2012 as part of the transaction with the Mining Group (note 5). In addition, the Company issued convertible notes for \$2,500,000 (note 10). The Company is not subject to any externally imposed capital requirements.

The Company's objectives of capital management are intended to safeguard its ability to meet normal operating requirements on an ongoing basis and continue the development and exploration of its resource properties. To effectively manage the Company's capital requirements, the Company has in place a planning process to determine the funds required to ensure appropriate liquidity to meet its operating and growth objectives. The Company monitors actual expenses on all exploration projects and overhead to manage costs, commitments and exploration activities.
